## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35

U.S.C. 121:

- I. Claims 1-44, drawn to a mass analyzer, classified in class 250, subclass 283.
- II. Claims 45-52, drawn to an inductive detector, classified in class 324, subclass 207.15.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions defined in claims 1-44 and claims 45-52 are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because an unshielded inductive detector or different detection configuration can be

used. The subcombination has separate utility such as a photoelectric detector, eddy-current detector, or other phenomena.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Stephen Barone on 3-1-05 to request an oral election to the above restriction requirement, but did not result in an election being made.

5. Applicant is advised that the reply to this requirement to be complete **must include an election** of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
